# Introduction

## The quiz where correct answers are just the beginning...

Welcome to The Connection Quiz, and thank you for trying our free version! This sample includes one complete round, giving you a chance to experience how the quiz works and discover what makes it different.

The Ultimate Connection Quiz starts like any traditional quiz: teams answer questions across a variety of categories and compete to collect points by giving as many correct answers as possible. But the real challenge begins after the answers are revealed. Your team must look beyond the individual answers and discover the hidden connections between them. By finding the right connecting words, you will gradually uncover the ultimate connection that brings the entire quiz together.

A standard quiz consists of 4 rounds, with 9 questions per round. The questions are grouped into 3 series of 3 questions. The 3 answers within each series combined lead to 1 connecting word.

For example, three answers “Eiffel”, “Seine” and “Louvre” lead to the connecting word “Paris”

By the end of the quiz, your team will have collected 12 connecting words. Together with the quiz title, these words hold the final clue: the ultimate connection. The first team to correctly identify the ultimate connection earns the most points towards winning the quiz.

An Ultimate Connection Quiz with 4 rounds typically takes 2 to 3 hours, depending on the speed of questioning and excluding time for extra connection game rounds.

## Structure per quiz round & recommended scoring

A single Ultimate Connection Quiz round consists of 3 series of 3 questions, so 9 questions per round. Each series gives you 3 answers, which together lead to 1 connecting word. With 4 rounds in total, you will uncover 12 connecting words, plus the quiz title, all serving as clues to find the Ultimate Connection.

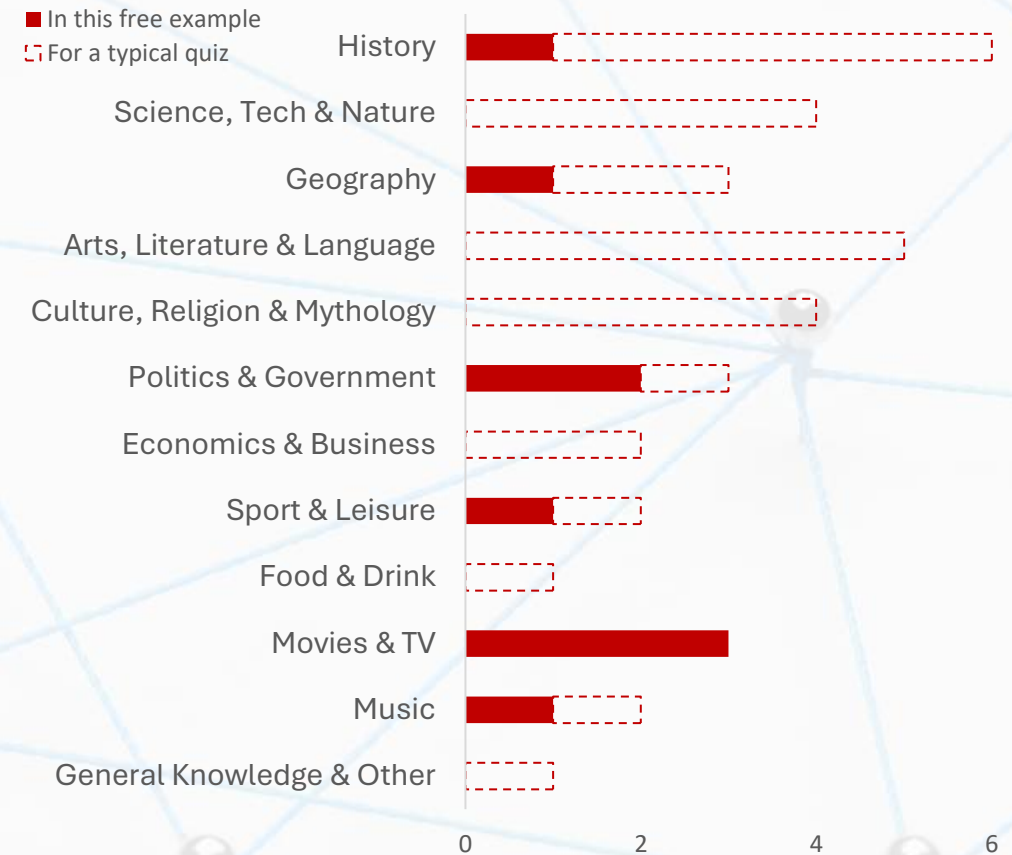

You score 1 point for each correct answer and 1 point for each correct connecting word. The team that submits the correct Ultimate Connection first scores 12 points, the second team scores 6 points, and the third team scores 3 points. But be careful: you only get one guess. If your answer is incorrect, you lose your chance and the points go to the next team that gets it right.
